

Holly Lodge,
Wellington Salop.

23rd March 1906.

Dear Sir,

Herewith I send you copy of my

Annual Report as Medical Officer of Health,

together with Statistics relating thereto.

Yours faithfully,

A handwritten signature in dark ink, appearing to read 'W. Hawthorn'. The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Medical Officer of Health.

RURAL DISTRICT COUNCIL OF WELLINGTON SALOP:

Annual Report of the Medical Officer of Health for the year ended
December 1905. _____

To the Wellington Salop Rural District Council.

Gentlemen,

I now present to you my annual Report for the year
ended December 1905.

I have compiled Statistics of Sickness and Mortality in the District
for the year and submit the result.

The Mortality of the District shows ~~the~~ 166 cases from all causes as
compared with 151 in 1904. This Number includes 27 deaths in the
Workhouse County Asylum and the Salop Infirmary belonging to the District.

In the table below is given the number of deaths which occurred in
portions of the three Registration Divisions which I have taken as
localities.

Wellington.	(Rural portion)	115.
Wombridge.		5.
Ercall Magna.		<u>46.</u>
		<u>166.</u>

The total number of deaths shown in the above table, calculated
upon the population of the District, shows a death rate of 14.3 per 1000.

In the table below I have classified the Various diseases which
proved fatal for the past year.

	1901.	1902.	1903.	1904.	1905.
Small Pox.	-	-	-	-	-
Measles.	3.	5.	-	-	8.
Scarlet Fever.	2.	-	-	2	2.
Whooping Cough.	5.	-	-	3	-
Diphtheria. & Membranous Croup.	1.	1.	1.	2	-
Croup.	-	-	-	1	-
Fever.	Typhus.				
	Enteric.				
	Other Continued.				
Epidemic Influenza.	3.	5.	-	1.	2
Cholera.	-	-	-	-	-
Plague.	-	-	-	-	-

	1901.	1902.	1903.	1904.	1905.
Diarrhoea.	8.	11.	5.	2.	4.
Enteritis.	2.	-	1.	3.	3.
Puerperal Fever.	1.	-	-	-	-
Erysipelas.	1.	-	-	-	1.
Other Septic Diseases.	-	-	-	-	-
Phthisis.	10.	2.	14.	15.	12.
Other Tubercular Diseases.	7.	-	-	12.	1.
Cancer.	12.	7.	6.	13.	15.
Bronchitis, Pneumonia, Pleurisy.	25.	29.	34.	22.	26.
Alcoholism, Cirrhosis of Liver.	4.	2.	1.	1.	3.
Premature Birth.	5.	3.	10.	3.	2.
Diseases & Accidents of Parturition.	-	-	-	-	1.
Heart Diseases.	21.	22.	21.	29.	22.
Accidents.	3.	4.	7.	2.	6.
Suicides.	1.	-	1.	1.	-
Seniles.					31.
All Other Diseases.	56.	52.	50.	39.	<u>26.</u>
					<u>166</u>

The table following shows the number of cases of Infectious diseases which occurred during the year and the number of deaths arising therefrom.

	Scarlet		Enteric or			
	Small Pox.	Fever.	Diphtheria.	Measles.	Relapsing.	Puerperal. Erysipelas
Persons attacked -	60.	9.	155.	4.	2.	6.
" died -	2.	-	8.	2.	-	1.

The Comparative statement below shows the number of Notices received by me under the Infectious Diseases Notification ACT, 1889.

1901.	1902.	1903.	1904.	1905.
<u>139.</u>	<u>326.</u>	<u>40.</u>	<u>121.</u>	<u>204.</u>

Infantile Mortality.

The number of deaths under one year was 31. This gives an Infantile Mortality rate of 111 per 1000 births.

Sewerage and Drainage.

Below is given a report of the ordinary Sanitary work done in the District during the year as supplied to me by the Sanitary Inspector.

Number of Houses Inspected	142.
Number of Legal Notices sent.	13.
Number of Informal Notices sent.	7.
Number of such Notices complied with.	20.
Number of Letters written.	7.

Houses to be disinfected after Infectious Diseases.	12 7.
Deficient of objectionable Water Supply.	81.
New Drains.	14.
New Closets.	10.
Houses damp or dirty.	4.
Houses overcrowded.	1.
No. of Cowkeeper or Milksellers on Register.	12.
No. of Inspections.	121

Nothing practically has been done during the year to abate the nuisance at Bratton and the immediate neighbourhood caused by the discharge of the Sewage from the Wellington Urban Council-District into the brook. There should be no delay in adopting measures to prevent this longstanding ^{serious} pollution.

I regret that the efforts of the Council to obtain a suitable site for the Hadley Sewage Disposal Area to meet the requirements of the Local Government Board have not yet been successful. This retards the carrying out of several Sanitary Improvements in the ^{Parish} District.

Pressure should be brought to bear upon the County Council Education Committee to induce them to carry out the whole of the suggested Improvements and alteration at Lawley Schools Especially in respect to the flushing of the Closets. At the moment of writing this Report I am advising the Closing of the Schools in consequence of the prevalence of Whooping Cough and Influenza amongst the Children.

Water Supply.

The upper portions of the Parish of Wellington Rural are still without an adequate supply of Water, they are dependent upon , draw-wells and shallow wells., I trust that the efforts of the Council, in conjunction with the Dawley Urban Council to obtain a good supply from the Wellington Urban District will be successful.

Notices have been served upon the owners of property at Hadley to obtain Water from the Wellington Urban Council's Mains and in most of the cases this has been done.

No improvement in the Water Supply at Bolas and Rodington has yet been made.

EPIDEMICS.

Scarlet Fever assumed an epidemic form during the first half of the year and Extending over the whole District, but was of a very mild character as out of 60 cases notified to me, only two proved fatal.

Measles also prevailed throughout the District. 123 cases having been Notified of which 8 ~~proved~~ ^{were} fatal.

204 cases of Notifiable diseases were notified to me during the year as shown in table 111 accompanying this report.

Each effected house was visited ^{and Inspected} by myself or in company with your sanitary Inspector, and Disinfection and Cleansing of the infected rooms carried out under the supervision of your Inspector or my self.

High Ercall Council Schools Were closed in June last in consequence of an epidemic of Measles amongst the Children attending those ~~these~~ Schools.

Factory and Workshop Act 1901.

There are in the District,

8 Bakehouses & Shops.
3 Shoemakers "
2 Tailors "
13 Blacksmiths"
6 Wheelwrights"
1 Joiners "
1 Dress makers"
2 Pipe & Tile Works.
1 Rope maker.

The whole of the above has been inspected by myself and the Sanitary Inspector. We found everything very fairly satisfactory.

GENERAL.

The District on the whole is very fairly satisfactory and when the contemplated Schemes of Sewage and Sewage Disposal and Water Supply are carried out, many of the existing defects will be removed.

I submit with this Report, Tables and statistics of Sickness and

mortality in the District for the past year.

I beg to remain,

Gentlemen,

Your Obedient Servant,

Wm, Thos. Hawthorn.

Medical Officer of Health

Holly Lodge, Wellington, Salop.

March 12th 1906.

This Table is enclosed, by request of the Secretary of State, for the guidance and convenience of Medical Officers of Health in preparing that part of their Annual Report which relates to factories, workshops, workplaces and home work. It is not intended to supersede the fuller statement which is desirable in the text of the Report, but to provide for uniformity in the presentation of such particulars as lend themselves to statistical treatment.

Further copies can be supplied on application to the Chief Inspector of Factories, Home Office, London, S.W.

Annual Report of the Medical Officer of Health for the year 1905
for the* Rural District of Wellington Salop

*e.g., Metropolitan
Borough,
County Borough,
Borough,
Urban District,
Rural District.

on the administration of the Factory and Workshop Act, 1901, in connection with

FACTORIES, WORKSHOPS, LAUNDRIES, WORKPLACES AND HOMEWORK.

1.—INSPECTION.

INCLUDING INSPECTIONS MADE BY SANITARY INSPECTORS OR INSPECTORS OF NUISANCES.

Premises.	Number of

Orders prohibiting homework in infected premises (s. 110)	
Workshops on the Register (s. 131) at the end of the year	
<div>Important classes of work-shops, such as workshop-bakehouses, may be enumerated here.</div>	
Total number of workshops on Register	

Date 12th March 1906

(Signature)

 Medical Officer of Health.

* The Lists should be received twice in the year. The year's figures required in the Table are those obtained by adding together the two half-yearly totals.

NOTE.—The Factory and Workshop Act, 1901 (s. 132), requires the Medical Officer of Health in his Annual Report to the District Council to report specifically on the administration of that Act in workshops and workplaces, and to send a copy of his Annual Report, or so much of it as deals with this subject, to the Secretary of State (Home Office). If the Annual Report is presented otherwise than in print, it is unnecessary to include in the copy sent to the Home Office the portions which do not relate to factories, workshops, laundries, workplaces or homework. The duties of Local Authorities and the Medical Officer of Health under the Act of 1901 are detailed in the Home Office Memorandum of December, 1904.

* Rates in Columns 4, 8, and 13 calculated per 1,000 of estimated population.

NOTE.—The deaths to be included in Column 7 of this Table are the whole of those registered during the year as having actually occurred within the district or division. The deaths to be included in Column 12 are the number in Column 7, corrected by the subtraction of the number in Column 10 and the addition of the number in Column 11.

By the term "Non-residents" is meant persons brought into the district on account of sickness or infirmity, and dying in public institutions there; and by the term "Residents" is meant persons who have been taken out of the district on account of sickness or infirmity, and have died in public institutions elsewhere.

The "Public institutions" to be taken into account for the purposes of these Tables are those into which persons are habitually received on account of sickness or infirmity, such as hospitals, workhouses and lunatic asylums. A list of the Institutions in respect of the deaths in which corrections have been made should be given on the back of this Table.

Area of District in acres (exclusive of area covered by water). 26,000

NOTES.—(a) The separate localities adopted for this table should be areas of which the populations are obtainable from the census returns, such as wards, parishes or groups of parishes, or registration sub-districts. Block 1 may, if desired, be used for the whole district: and blocks 2, 3, &c., for the several localities. In small districts without recognised divisions of known population this Table need not be filled up.

(b) Deaths of residents occurring in public institutions beyond the district are to be included in sub-columns c of this table, and those of non-residents registered in public institutions in the district excluded. (See note on Table I. as to meaning of terms "resident" and "non-resident.")

(c) Deaths of residents occurring in public institutions, whether within or without the district, are to be allotted to the respective localities according to the addresses of the deceased.

(d) Care should be taken that the gross totals of the several columns in this Table respectively equal the corresponding totals for the whole districts in Tables I. and IV.: thus, the totals of sub-columns a, b, and c should agree with the figures for the year in the columns 2, 3, and 12, respectively, of Table I.: the gross total of the sub-columns c should agree with the total of column 2 in Table IV., and the gross total of sub-columns d with the total of column 3 in Table IV.

NOTES.—(a) In this Table all deaths of "Residents" occurring in public institutions, whether within or without the district, are to be *included* with the other deaths in the columns for the several age groups (columns 2-8). They are also, in columns 9-15, to be *included* among the deaths in their respective "Localities" according to the previous addresses of the deceased as given by the Registrars. Deaths of "Non-residents" occurring in public institutions in the district are in like manner to be *excluded* from columns 2-8 and 9-15 of this Table.

(b) See notes on Table I. as to the meaning of "Residents" and "Non-residents," and as to the "Public Institutions" to be taken into account for the purposes of these Tables. The "Localities" should be the same as those in Tables II. and III.

(c) All deaths occurring in public institutions situated within the district, whether of "Residents" or of "Non-residents," are, in addition to being dealt with as in note (a), to be entered in the last column of this Table. The total number in this column should equal the figures for the year in column 9, Table I.

(d) The total deaths in the several "Localities" in columns 9-15 of this Table should equal those for the year in the same localities in Table II., sub-columns c. The total deaths at all ages in column 2 of this Table should equal the gross total of columns 9-15, and the figures for the year in column 12 of Table I.

(e) Under the heading of "Diarrhœa" are to be included deaths certified as from diarrhœa, alone or in combination with some other cause of ill-defined nature; and also deaths certified as from

Epidemic enteritis;
Zymotic enteritis;
Epidemic diarrhœa. Summer diarrhœa;
Dysentery and dysenteric diarrhœa;
Choleraic diarrhœa, cholera, cholera nostras
(in the absence of Asiatic cholera).

Under the heading of "Enteritis" are to be included those certified as from Gastro-enteritis, Muco-enteritis, and Gastric catarrh, unless from information obtained by enquiry from the certifying practitioner or otherwise, the Medical Officer of Health should have reason for including such deaths, especially those of infants, under the specific term "Diarrhœa." Deaths from diarrhœa secondary to some other well-defined disease should be included under the latter.

Under the headings of "Cancer" and "Puerperal fever" should be included all registered deaths from causes comprised within these general terms.

In recording the facts under the various headings of Tables I., II., III. and IV., attention has been given to the notes on the Tables.

Wm. H. Hawthorn Medical Officer of Health.

Date March 12th 1906.
